---	---	---

IV. Plan Review Required

Plans must be submitted with an application for plan examination and the appropriate deposit before a permit can be issued, except as listed below.

Plans are not required for the following:

1. When the electrical system rating does not exceed 400 amps and the building is not over 3,500 square feet in area.
2. Work completed by a governmental subdivision or state agency costing less than \$15,000.00.

If work being performed is described above, check the box below "Plans not required."

What is the rating of the service or feeder in ampere? _____

What is the building size square footage? _____

Plans are required for all other building types and shall be prepared by or under the direct supervision of an architect or engineer licensed pursuant to 1980 PA299 and shall bear that architect's or engineer's seal and signature.

V. Applicant Signature

Section 23a of the state construction code act of 1972, 1972 PA 230, MCL 125.1523A, prohibits a person from conspiring to circumvent the licensing requirement of the state relating to persons who are to perform work on a residential building or a residential structure. Violators of section 23a are subject to civil fines.

Signature of contractor or homeowner(Homeowner signature indicates compliance with Homeowner affidavit) DATE:

VI. Homeowner affidavit

I hereby certify the electrical work described on this permit application shall be installed by myself in my own home in which I am living or about to occupy. All work shall be installed in accordance with the Michigan electrical Code and shall not be enclosed, covered up, or put into operation until it has been

inspected and approved by the local Electrical inspector. I will cooperate with the local Electrical inspector and assume the responsibility to arrange for necessary inspections.

VII. Fee Clarification

Item #17, Mobile home unit site: When installing a service in a park, the permit application must include the application fee, service, plus the number of park sites. When setting a HUD mobile home in a park, a permit must include the application fee and a feeder. This shall be done by a licensed electrician contractor. When setting a HUD mobile home or a premanufactured home on private property, a permit must include the application fee, service and feeder, and a final inspection.

VIII. Fee Chart - enter the number of items being installed, multiply by the unit price for total fee.

	Fee	Item	Total		Fee	Item#	Total

IX. Instructions for completing application

General: Electrical work shall not be started until the application for permit has been filed with the proper township. All installations shall be in conformance with the current NEC code. No work shall be concealed until it has been inspected. The telephone number for the inspector will be provided on the permit form. When ready for an inspection, call the Inspector providing as much advance notice as possible. The inspector will need the job location and permit number.
